

REFLECTING TOMORROW'S TECHNOLOGY TODAY

SAMPLE CERTIFICATION

Virginia Mirror Company, Inc. certifies its mirrors to comply with the following paragraphs of ASTM C 1503 and ASTM C 1036.

ASTM C 1503

Quality: Q2
Grade: Mirror Select

ASTM C 1036

6.1 EDGE REQUIREMENTS
6.3 DIMENSIONAL TOLERANCES
6.4 IMPERFECTIONS

The buyer acknowledges and accepts that the mirrors may contain small quantities of minor defects as permitted by the Standard.

Unless so acknowledged, all mirror glass supplied by Virginia Mirror Company, Inc. will be of Q-2 or better quality as defined in ASTM C 1036 4.1.1.1 Classification and Intended Use-Class 1-Clear.

Virginia Mirror Company mirrors are made from selected *float* glass and conform to **ASTM C 1503 Standard Specification for Silvered Flat Glass Mirror**. Inherent in the *float* glass process are some small gaseous inclusions and minor abrasions. Occasional small "bubbles" and hairlines are, therefore, perfectly normal and acceptable under the Standard and should be virtually unnoticeable from a normal viewing distance.

All glass and mirror products are manufactured in the USA.

Virginia Mirror Company, Inc.
